Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 March 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. In the Reply filed 03/30/2009, Applicant has amended claims 13, 14, 18 and 19. Examiner's rejections of claims 13-21 under 35 U.S.C. 112 and 35 U.S.C. 102(b) are withdrawn.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 13-18 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 13 recites "an angled edge zone" in line 12. Claim 16 recites "edge zones" in lines 2 and 4. Claim 18 recites "one angled edge zone" in line 2, and "a second angled edge zone" in line 6. How many edge zones are there?

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. **Claims 13-15 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Fevre et al. (US 6,092,957).**

7. Regarding **claim 13**, Fevre discloses a device comprising: a guide part (bracket 12) which is prefitted on the fixing region of the guide rail (second member 2) and is

connectable to the door body and which receives a first part (clamping pin 4) of the multi-part fixing device, further comprising a device (mobile rack 7) for aligning the fixing region of the guide rail to the guide part and to the door body at least in the direction of the vehicle transverse axis (Y-axis) and a second part (nut 15) of the fixing device to produce a clamping connection between the fixing region of the guide rail and the door body, and a detent connection (see figure below) which engages in a nominal position of the guide part relative to the fixing region of the guide rail, the detent connection comprising an opening provided in an angled edge zone of the fixing region of the guide rail and a detent catch of the guide part engaging in the opening and having a ball head which engages in the opening of the fixing region of the guide rail.

8. Regarding **claim 14**, the guide part (bracket 12) is formed in one piece; is displaceable between positions shown in Fig. 4 and 6; and is connected with positive locking engagement to the guide rail (second member 2) by the clamping pin 4.

9. Regarding **claim 15**, a part of the fixing device is located in a slot opening in the guide rail (see Fig. 3-6).

10. Regarding **claim 21**, the fixing device comprises a connection of a fixing screw (clamping pin 4) and a fixing nut (nut 15); wherein the fixing screw is held in a socket as shown in the figure below.

Response to Arguments

11. Applicant's arguments filed 03/30/2009 have been fully considered but they are not persuasive. Regarding claim 13, Examiner stated that claim 19 would be allowable if rewritten overcome the rejections under 35 USC 112 2nd paragraph, and to include all of the limitations of the base claim and any intervening claims. The limitations of claims 15 and 16 are not included in claim 13. The amendment to claim 13 to include the limitations of claim 19 necessitated the new grounds of rejection.

Allowable Subject Matter

12. Claims 19 and 20 are allowed.
13. Claims 16-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The documents cited on form PTO-892 disclose connecting devices similar to that of Applicant's invention.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
